

CLEAN UP SALE

All Summer Garments to Go

Positively the Most Stupendous Sale of Summer Garments Ever Held in El Paso

We have set aside the next ten days to closing out completely all summer garments. This is, positively, the last sale of the season on summer styles. We know it is general to regard half-price values as being good bargains. In the present sale we have gone even beyond that, and in most cases values are one-third. Fall styles are beginning to arrive, with more on the way, so, during next 10 days, we propose to close out all summer garments

Clean Up-- LINEN DRESSES

Final Clean-Up of Linen Dresses must be made next week. Of course, Monday is only the 1st of August and into September there will be a demand for linen dresses. But, we want to sell now. When the Fall season opens we want to be ready with a store full of fall styles. When you come to us looking for information on correct fall styles, we must be ready to show them to you.

Come next week. Replenish your stock of linen dresses. Prices are down to less than half. The latest summer models are to be found in the following lots—Russian effects, tunics, overskirts, the straight one-piece styles, also the pretty dresses with waist of white but colored skirt. We want to impress on you that linen is a comprehensive word—not all these dresses are pure linen, some are linene and some linen zephyr.

Clean Up--Linen Suits

We must sell linen suits next week—and if cut prices are any inducement we will. When next Saturday night comes we don't want to have one single linen suit left in the store. Toward this end, we are sacrificing all profit. We are offering you this season's styles in linen suits not at 1-2 price—no, less than that—at just about 1-3 regular prices.

Both plain tailored and handsomely trimmed suits in the following lots. Colors—white, pink, blue, lavender, natural, yellow, purple, gray.

Linen Suits in values up to \$5.00.....	\$1.89	Linen Suits in values up to \$15.00.....	\$4.89

Now, really, were you ever before offered Linen Suits at such reductions? And, they're "White House" suits, too, with "White House quality" showing in every line.

Clean Up--Silk Dresses

Not many silk dresses remain—and those will be closed out next week. We have cut prices so radically that there can be no doubt about selling every one. Limited as the number is, there is still a wide variety of choice, for there are hardly any two dresses alike.

They are made of all the lovely summer silks—ponces, messelines, rajahs, plain colored taffetas, fancy taffetas, foulards, satins and crepe de chine. There are dresses for street wear, for afternoon social affairs and even for evening wear. Both high and low necked dresses are shown, with either long or short sleeves. Many have yoke and sleeves of rare lace. The tunic is probably the predominating style note. Color range embraces pink, blue, lavender, gold, rose, tan and the natural pongee shade.

A handsome silk dress at about 1-2 price— is what these prices mean to you.

Clean Up-- WAISTS

Waist styles change but slowly—waists that are good style today will be good styles six months from now. This is especially true of tailored waists.

Realizing this, you perhaps will wonder why we now cut prices on waists. Why don't we hold them over the next six months and sell at regular prices and profits?

The principal, in fact, the only, reason is that heavy selling this spring and summer has left us with a sadly depleted waist stock. It is really easier to order a whole new stock than to try to build up the broken lines.

All remaining waists—linen, linene and lingerie—will be on sale next week. Reductions are practically half. Why not, keeping in mind what we said about waist styles, lay in a bountiful supply of waists—now when you can get them so cheap.

Styles are too many for us to attempt description. Won't you come and look at these skirts? They are not the usual order of wash skirts. They're "White House" skirts—perfectly cut, perfectly shaped, so they fit just as trimly and hang just as perfectly as any tailored wool skirt.

Mishap to Clouderoff Excursionist—Many People at Roof Garden.

(By Mrs. W. S. Tilton.)

Clouderoff, N. M., July 30.—Another jolly party went to the Indian agency Thursday. Most of the parties who take the trip make it in one day, but this crowd camped over night, which was the jolliest way ever. Only one thing happened to mar the pleasure of this trip and that was the loss of Miss Janie Ellis's diamond sunburst brooch. She had carried it along, for safety, as she thought it better to have it with her than to leave it behind. It contained 11 diamonds. Those in the party were: Mrs. Grace Ellis and the Misses Janie, Anna Grace, Gertrude and Harriet Ellis, Elizabeth Stevens, Horace Stevens, Paul Ellis, Leland Davis and George Wines.

Frank J. Morrell, of Denver, brother of Mrs. J. A. Eddy, who has spent three delightful weeks at "Rift Point Lodge," returned to his home yesterday. He, Mrs. and Mrs. N. R. Crozier and family have taken the Springer cottage. Baby Crozier is quite ill, but already a slight improvement is noticed.

stock pens. It is preparing to move cattle to grass in the Valentine country, and it will be necessary to dip everything before moving.

The Mexicans from this town have organized a 12 piece brass band and have ordered their instruments. Juan Navarrete is leader.

Dr. S. B. Hudson has received a Flanders 20 auto, the first one to be purchased by a Sandersville, though some of the ranchmen of the county have them.

The school board has selected the site for the new \$20,000 school building. Bids were opened but none of them were satisfactory and new bids have been asked for.

A number of our citizens are having cement sidewalks put down around their premises. Another improvement many citizens are putting in is Bermuda grass lawns.

The longest freight train that ever pulled into Sandersville was brought in a few nights ago, with conductor Stead in charge. It had 80 cars, and was about three-quarters of a mile in length. One of the Mallet engines pulled the train. The heavy ironwork on the Pecos high bridge is completed and the bridge company doing the work expects to complete the work by August 1.

The consolidation, or 800 class engines are again being used on the Sandersville Rio division, after having been off for nearly three years. The 1800 class engines have been sent west for service.

L. Peterson, who has been brakeman on the G. H. out of here for several years has quit the service and will leave for California in a few days with his family. Business on the G. H. is duller now than since the panic and a number of the "older men" are fighting the extra board.

A. C. Smith, former section foreman at this place, with his wife and son has gone to California where they will reside.

A. G. Anderson has received from New Mexico a carload of thoroughbred bucks for service on his ranch in this county.

NO TYPHOID FEVER IN TOWN OF ROSWELL

Four New Water Wagons Sprinkle Streets—New Sulphur Springs.

Roswell, N. M., July 30.—So far this year Roswell has had no typhoid fever, a record believed to be without parallel in the southwest.

Jeffa Prager & Co. have leased to J. M. O'Kelly, for five years, five sections of pasture land east of the Pecos river, including several deep holes and the noted "sulphur springs," the waters of which have become well known. Mr. O'Kelly has begun the construction of a bathhouse and will make the springs and lakes a health and pleasure resort.

A heavy rain in the Pajoto mountains above Picocho, brought a four foot flood down the Hondo river and enabled many farmers in the Hondo reservoir district to give their lands a fine irrigating.

Roswell's four new sprinkling wagons, each tank having painted on it, "Cleaner and Greater Roswell," all joined together and hauled along Main street by a large team, created general interest. Six street sprinklers will start to work next week.
